

Fact Sheet

NewFire's vision is to bring hope and healing to the people of God, and salvation to the lost, through the ministry of music. We have a real heart for the church and understand the trials facing people of faith. We want to minister to not only the congregations, but also to the leadership of churches, and encourage them to concern themselves not with religion, but with relationship with the Lord. We want to ignite a passion in the people who hear our music, and to encourage them to then use the power and resources of their churches to venture out into their communities to reach the lost.
